

The CZ TS Czechmate as it has been for years. Trigger guard very similar to that of the SP01, just a hair thicker.

The 2017 CZ TS Czechmate now uses the same frame as the CZ TS Orange. Note the thinner squarer trigger guard.

a customer with this new model needs a TS Orange insert, not a TS CZechmate insert, even though his gun is a CZ TS Czechmate... we will need to check with customer before shipping.
